

# FISCH

HAFEN presents, DeFi Project named Fisch. Fisch is a DeFi Protocol in HAFEN ecosystem and will empower HAFEN in the future. Fisch will do a cross-chain DeFi ecosystem, the first stage of Fisch will launch at Binance Smart Chain and will launch at others chains in the future.

## Our product

### Yield Aggregator

Yield Aggregator will be our first product, we will make vaults to help users optimize their farming and staking APR with more rewards too.

### Money Market

We will create the Money Market Protocol to let users borrow and lend crypto assets to our protocol with supported NFT collateral powered by HAFEN.

### Launchpad and IDO Platform

We will create the platform to help seed and new projects to launch and fundraising backed by HAFEN, more details will be revealed soon!
